

6 Elements of Geography Poster Project

- Your task is to create a poster illustrating the 6 elements of geography.
- After each day of notes you will add a drawing or picture representing the element discussed that day in class.
- You will have a paper provided for you...no need to buy anything. You will have an example for you in class but you may divide the poster up in any way you choose to make it look nice.
- You must include all 6 elements with their own unique drawing or picture
- You will not be graded on how well you can draw...don't worry!
- The poster will be worth 30 points, 5 for each element.
- In order to get the 5 points for an element, you will need to include the name of the element (1 point), a correct representation (1 point) of the element in picture or drawing form (1 point), color (1 point), and neatness (1 point)
- Points will also be taken off if you do not use the space on the poster...please color, decorate, and fill the space. Make the poster look nice!
- THERE SHOULD BE NO NOTES ON THE POSTER. ONLY THE DRAWINGS AND TITLES.
- If you complete the above requirements for all 6 elements, you will score a 30 out of 30
