

## My Life Timeline Activity

For this project you will make a timeline of your life. You will need to choose 15 important events to list in order on the timeline. Each event should be dated and include a brief description of the event. In order to determine what to put on your timeline, think about what is typically found on timelines. Do they include every detail of a time period? No. They usually consist of major or important events that occurred during a specific period of time. So for this activity, you will need to think of 15 events that have helped shape who you are today or have somehow impacted your life. These should start from birth all the way to the present day. (The day of your birth is the ONLY birthday you may use for the timeline)

Example: In my life a major event was the day my daughter was born. I would include this on my timeline like this...November, 11<sup>th</sup>, 2011 – My daughter Hayden was born.

Use the area below to organize your thoughts and plan your timeline.
